

The newly introduced Forza **Zion-2K30** features a unique innovation in the industry: 350° rotating outlets to easily accommodate and position all your components without obstructing other available receptacles. The handy on/off switch also helps reduce standby power consumption. Most importantly, the FVP Voltage Protector will automatically guard your equipment against brownouts or transient spikes induced by lighting or power line failure.

FEATURES

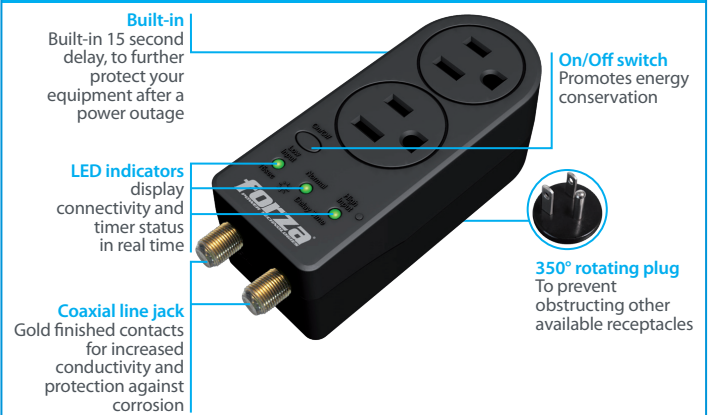

The uniquely designed 3-in -1 voltage protector will automatically guard your equipment against potentially damaging power fluctuations and other irregularities in the electrical supply.

- ✓  **Reliable protection**
- ✓  **Delay timer**
- ✓  **Rotating outlet**
- ✓  **On/Off switch promotes power conservation**

STANDARD APPLICATIONS

- Digital satellite system (DSS)
- CATV, cable modem and antenna
- LCD and LED and plasma television sets
- Transceiver and telecommunications equipment
- Home theater components
- Printers, routers and telephone sets

FVP-0200C

CONNECTIONS FVP-0200C

Input	
Output	

	FEATURES		FVP-0200C
MODEL	FVP series		Zion-2K30
TECHNICAL SPECIFICATIONS	Voltage		110V
	Voltage range		90 to 140 VAC
	Maximun current		15A
	Input frequency range		50/60Hz - autosensing
	Power line surge energy rating		1400 joules
	Surge protection I _{max}		18000A
	Input connection type		NEMA 5-15P
	Total number of outlets		NEMA 5-15R x 2
	Built-in delay		15 seconds
	Visual indicators		3 LEDs on top cover
	Color		Black
	Dimensions (D x W x H)		120x45x69mm
	Net weight		170g
